DND Traffic Today: Night-time traffic restrictions will affect the Noida-to-Delhi side of the DND Flyway from February 22 to March 18 (11 PM–6 AM) due to resurfacing work. Delhi-bound vehicles will be diverted via Chilla Border.

DND Traffic Today: DND Flyway (Noida to Delhi) faces nightly closures (11 PM–6 AM) until March 18 for resurfacing. Use Chilla Border diversions and plan ahead to avoid midnight delays. (Representative Image, Created Using AI)

DND Traffic Today: Traffic on the Noida to Delhi side of the DND (Delhi–Noida Direct) Flyway will be restricted at night from till March 18. This is happening because the second phase of road resurfacing work is being carried out. The DND Flyway is a 9.2 km long, eight-lane road that connects Noida to Delhi’s Maharani Bagh area. Around 2.5 lakh (250,000) vehicles use it daily, so it is a very important route. The work is being done by Noida Toll Bridge Company Limited (NTBCL), which maintains the flyway.

What Changes for Commuters?

During night hours (11 PM–6 AM), traffic going from Noida to Delhi will be diverted.

Vehicles from Noida Expressway (Mahamaya side)

Usually, vehicles here take the DND Flyway directly to avoid longer route. However, now they will be diverted via:

Vehicles from Sector 16 and Rajnigandha Chowk

This spot sees traffic jams due to the traffic drawn to Film City, WTT and other prominent office spots. Due to the diversion, they:

- Will not be allowed to directly enter DND towards Delhi.
- They must take a U-turn near DND Toll
- Then go via Chilla Border.

Why Is the Maintenance Work Needed?

The resurfacing work is being carried out as a part of major upgrade project started in October 2025. However, there were many challenges that delayed the completion date, such as:

- Pollution-related restrictions
- Winter temperatures
- Shortage and transportation challenges of bitumen (road material)

It is worth noting that this is the second major repair on DND.

- First phase (Rs 5 crore) was completed in 2023 before the G20 Summit.
- Current phase costs around Rs 6 crore.

Key Points

- Night restrictions: Feb 22 – March 18 (11 PM–6 AM)
- Only Delhi-bound traffic from Noida is affected
- Diversions via Chilla Border
- Plan ahead, especially for airport travel
- Work expected to finish by March 2026
