Good news for Delhi-NCR residents: Noida-DND road to be linked directly with this expressway, Jewar Airport connectivity to improve in...

The DND-Jaitpur section has now been inspected by Union Minister Nitin Gadkari along with Delhi Chief Minister Rekha Gupta. The 9 km stretch from DND Flyway to Jaitpur has recently been completed at a cost of around Rs 1,836 crore. Once fully open, it will allow direct travel from DND Flyway to the Delhi-Mumbai Expressway.

[How will travel times improve after the expressway opens?](#)

Officials from the National Highways Authority of India (NHAI) say the new link will greatly reduce travel time. Sarai Kale Khan to Faridabad will take about 20 minutes, Manesar around 45 minutes, and Jaipur about two and a half hours. This is expected to reduce traffic pressure on Delhi, Noida, and Ghaziabad roads.

[What is special about the DND-Jaitpur section?](#)

This 9 km stretch includes a major engineering feature - India's longest 140-metre steel arch bridge over the Agra Canal. The project is designed to ease congestion on Mathura Road and improve traffic flow towards Faridabad, Sohna, and Jaipur, where parts of the expressway are already open.

A new link road will connect the expressway to Jewar Airport via Chandauli village near Faridabad. This work is expected to be completed within one year. After this, people from Faridabad, Palwal, and nearby areas will get direct access to the airport.

[What other road projects are planned for Delhi?](#)

The government plans to start work on four major road projects this year to reduce traffic jams in Delhi. Three key roads will be made signal-free, while one will be expanded. Around Rs 87,000 crore worth of road projects have already been completed in Delhi, with more under construction and new plans in the pipeline.

How will UER-2 improve regional connectivity?

The Urban Extension Road-2 (UER-2) will be linked to the Delhi-Dehradun Expressway. A new 17 km road from Alipur to Tronica City will begin this year. This will improve connectivity for Delhi, Haryana, and Rajasthan, and also support links towards Noida and surrounding areas.

Will Delhi-Amritsar-Katra Expressway connect to UER-2?

Plans are underway to connect the Delhi-Amritsar-Katra Expressway with UER-2. A detailed project report is expected within three months. Several other roads, including Mathura Road, Rohtak Road, and NH-148A, will also be made signal-free by the end of the year.
